CENTRE POINT SCHOOL[®]

Dear Readers,

Intelligence was perceived to be unitary, fixed and innate. In the 21st century, it is understood as multi-faceted and learnable. We now see children as producers and not just consumers of knowledge with the learning focus on application of knowledge.

Our children at Centre Point Schools have unlimited creative potential that reveal hidden and diverse realities. Creativity is that bridge from what has been to what is and what can be. The second half of the academic year has provided an environment where children could experiment with their diverse expressions of creativity. The attempt in our schools has been to unlock their diverse futures, so that there are greater possibilities for them to explore in real life situations.

Our challenge as Educators has always been, to cherish and nourish the perfections hidden within children. To help graduate out of schools, well honed, balanced, responsible individuals who blossom into valuable assets for their families, organizations and society at large, is the endeavour we pursue relentlessly.

In this complex world, it takes more than a good school to educate children. And it takes more than a good home too. It actually takes these two major institutions of learning, working together. We are grateful for the support and partnership of the parents, which has led to increased student success.

As valuable partners in your children's education, we present a plethora of events that took place in the schools - humble endeavours envisaged to achieve the set goals.

Happy reading!

Thankyou.

The students were asked a wide range of tough questions, from scientific topics like Meglados to historical ones like Hitler and World War 2. As the quiz team of class 7 was also participating, all the organizers and participants had assumed that the 7th graders wouldn't even give the amateur 6th graders a chance. But, they were all proven wrong. 3 out of the 6 teams qualifying for the Final Stage Round were from 6th standard, and the highest score of 8 points out of 20 was actually achieved by a 6th grade team comprising of Pratyush Jaiswal and Rishit Agrawal of Class 6F. The final round was conducted together by three quizmasters, Eshan Sarda, Ishwar Sarda and Falgun Sukhija, according to the rounds that they created. The first round, 'Exploring New Worlds' was conducted by Eshan Sarda, where the topics were mainly geography, wildlife, politics and current affairs. The questions ranged from the Nilgiri mountains to the statue of Unity. A 6th grade team answered correctly. This was the team, which lost the quiz in the end, but won everybody's hearts in return. The team comprised of Anay Jhanwar and Mohd. Nashit of class 6E. The Second Round conducted by Falgun Sukhija was a Science-based round, with 6 questions to each team. Here, Sahil Daga and Ananya Agrawal's team picked up the pace. The round ended fast, and was immediately succeeded by Ishwar Sarda's third round, which was 'Connecting the Dots'.

The orgnaizers had brought buzzers from their seniors and this round was conducted on buzzers. Sahil's and Anay's team were now on a tie, whereas all the other teams were lagging behind. The fourth round was an amazing round called 'Choose the Pick' round, which was also conducted by Eshan Sarda. Here, Pratyush and Rishit, the prelim champions, also came at par with the two scoring teams, but were twenty points behind. The final round, 'Kaun Banega Crorepati' was a buzzer round as well. In this round, Anay's team, which was leading, just lost out on the last question of the quiz, about Pro Kabaddi, which made Sahil and Ananya the champions. Everybody were proud of Anay and Mohd. More than the champions in the end. The organizers gave them certificates and a Dairy Milk Silk each. The first prize went to Sahil Daga and Ananya Agrawal. The second prize went to Anay Jhanwar and Mohd. Nashit. The third prize went to Rishit Agrawal and Pratyush Jaiswal. The 6th grade quizzers took the quiz to a different level. The entertaining play

As the LED screen lit up and showed Google maps to assist the compeers in their 'project research', the momentous journey began with **the Northern region**. The audience was in for a visual treat as the entire northern region unfolded right in front of their eyes. With the Kathak performance bagging the loudest applause, the 'nautanki' gave a powerful social message of saving the girl child and the Bhangra performance saw some of the audience on their feet matching steps with those of our boys on stage.

The tribal culture of Madhya Pradesh was a revelation indeed, making everyone realize that there is still so much to know and explore about our country! As Google Baba revealed the mountains, plateaus and deserts of our country's **Western region**, the spectators waited expectantly to see a region rich in folk lore and religious fervor. With two 'puppets' setting forth on a pilgrimage from Rajasthan to Gujarat and finally culminating in Maharashtra weaving the thread of the journey, the cultural extravaganza was a delight for the senses. With dances like the Garba and the Tera Tali performed so beautifully by all the dancers, the audience was left in awe and simply loved it.

With the next stop on the travelogue itinerary being **South India** where Hinduism first originated, the audience was treated to a vision of a region which has still proudly preserved its culture and continues to practice it and of the region which has gifted Ayurveda to the world.

Bamboo dance from Mizoram

Blending the sonorous strains of a classical music fest in honour of Saint Tyagaraja with the beautifully choreographed presentations of Bharatnatyam and the Pinal Kolattam highlighted with the perfect synchronization of Kalaripayattu left everyone in thrall!

The enchanting **Eastern region** made its grand entry with the most mesmerizing dance cum stunts act performed by Gotipua dancers. What looked like young girls at first glance turned out to be young strapping boys dressed up as girls performing the act!!

This region left the audience very impressed as it showcased spectacular dances which were performed by its famous rivers i.e. the Brahmaputra, the Ganga and the Mahanadi. The icing on the cake was the interesting skit showcasing all the extraordinary aspects of Jagannath Puri temple in Odisha culminating with a Rath Yatra depicting devotees dancing and chanting as they followed a 'Rath'. It certainly had the audience standing up in excitement! The show ended on **an apt finale with representatives of all the four regions creating a map of India on the stage accompanied by the choir melodiously singing 'mile sur mera tumhara'**.

This helped her in qualifying for the Divisional Level which was held at Wardha on 3rd Sept'18. More than 50 children had contested in this event. There were a lot of good players in action that day, but the speed of Hiya's forehand was exceptional. She'd spent over 60 per cent of that match not resting between points or between games. No, the minutes were spent engaged in a high quality battle of squash with her nemesis that day, Trisha Garg, with the duo pushing each other into all four corners in a brilliant match made up of movements that generally consist of three-six meter sprints, of which almost 50 per cent is backwards, followed by a lunge or dynamic movement to set up for a shot – before exploding back to the T in anticipation of the next shot to come. It was an outstanding match-up, running to two games, Hiya triumphing 11- 6 at last. This stunning victory helped her qualify for the State Level tournament which was held at Nasik. She was awarded the first prize, Merit certificate and a Gold medal for her excellent gameplay. Principal, Mrs. Radhika Mehra, Vice-Principals, Mrs. Perveen Cassad and Mrs. Anita Sharma, the students and staff congratulated her on her glorious achievement.

CPSWN CARE GIVERS DONATE BLOOD FOR A GOOD CAUSE

Taking up the initiative to instill the essence of communal harmony in its true sense in students and parents alike as the school commemorated **Communal Harmony Week** from 19th to 25th Nov '18, **two blood donation camps were organized on 17th and 29th Nov '18 by the Interact Club** of Centre Point School, Wardhaman Nagar in the school premises. Members of the club laid the foundation for the good cause by spreading awareness regarding Thalassemia among the school students by showing them a presentation on the same. Childrens & Parents buying the diyas

These diyas, made by specially-abled children of the sanstha, saw a good response from the children and the young organizers managed to collect **a whopping amount of about Rs 14,000 in just two days time**. It certainly turned out to be a valuable contribution made by our students as well as the staff and the Interactors hoped that it would bring sparkling smiles on the faces of the young beneficiaries. CPSWN SPREADS AWARENESS ON CYBER SAFETY

Sensitizing the students towards cyber safety

Living in an age of increasing digitalization and virtual reality, it is so essential to sensitize users to the boons and the banes of sustained gadget usage and 'online' presence.

The **Interact Club** at Centre Point School, Wardhaman Nagar, along with other students set out to do just that by undertaking an initiative to make **the teachers and the students of Classes 6 to 12** aware about **cyber safety and security**.

At the outset, they conducted a workshop for teachers themed on various features of social media covering

We Care.....

'Whatsapp' and 'Facebook' as they are regular users yet are not aware of the cyber crimes committed online and some of their features.

A similar session was conducted for **students of Classes 9, 10, 11, and 12**. Talks related to gaming addiction were also held for **Classes 4 to 8** as it is important for them to know how excess use of electronic gadgets affects their brain and studies. Feedback was later taken by way of forms so that the student volunteers could come to know what was going on in the minds of teenagers. The cyber awareness seminar turned out to be a great success as teachers and students alike found themselves greatly benefitting from it. The young volunteers who spearheaded the initiative thanked their teachers for guiding and training them to take it up so well.

CPSWN STUDENTS GIVE GANESHA A UNIQUE EDGE

The eco-friendly Ganesha!

With some Indian festivals having a detrimental impact on the environment, it is time to rethink how we strike a balance between celebrating them and conserving our ecosystem. **Members of the Interact Club** of Centre Point School, Wardhaman Nagar did just that when they encouraged students of Class VIII to **make Ganesh Chaturthi an eco-friendly festival by designing and making their very own Ganesh idol from organic matter** like hay, sutali, shadu clay, natural colours, crepe paper, basil, alum and gum made from 'maida' and rice paste. Even the 'modak' was made from alum. Under the guidance of their Art teacher, Mr. Praveen Waliokar, the children made the idol which was displayed for everyone to see and seek blessings from.

The sensitized children implored everyone to use eco-friendly idols so that they can be immersed properly at home and the remains can be used later as manure. The school management, staff and students thanked the Interactors for becoming 'green ambassadors' and taking the initiative to spread the much-needed awareness.

INSTILLING THE MESSAGE OF BROTHERHOOD AT CPSWN

We Care.....

The message of unity, brotherhood and peace rang loud and wide as Centre Point School, Wardhaman Nagar observed **Communal Harmony Week** from 19th to 25th Nov '18. As cited by one of the coordinators, Mr. Akhil Yusuf, "Two religious festivals viz., Guru Purab and Eid, both falling during this time period, itself is an indication of communal harmony in the nation." On the 19th i.e. the day of commencement of the Communal Harmony Week, **the school celebrated Children's Day paying a wonderful tribute to Pt. Jawaharlal Nehru.**

Ms. Deepa Chakraborty addressing the children

Mrs. Philomena Gounder reciting from the Bible

With only two

days in hand, the school put its best foot forward to re-iterate the message of inculcating peace and harmony among friends and students. The **Vice-Principal, Ms. Deepa Chakraborty, addressed the assembly on the morning of 20th Nov**, eloquently delivering the essence of the term 'communal harmony'. She cited that when students are shuffled at the end of their academic year, religion is never a criteria for their segregation. She relevantly quoted the example of the

movie 'Kedarnath' in which the protagonist, though a Muslim, saves the life of a Hindu girl and safely carries several other pilgrims of different religions to a helicopter thus recuing them from the flood but choosing to sacrifice his own life for the sake of others. This rendition of ideas probably worked as food for thought that if during a national crisis we could stand together as one nation, irrespective of our caste, creed and religion, why not at other times. On the same day, **the school English choir presented a song that propagated the message of equality and fraternity.**

The organizers being presented Communal harmony badges

On 24th Nov, **teachers belonging to different religions read out messages of peace from their religious books** in the morning assembly. On a concluding note, the Principal, Mrs. Sumathi Venugopalan told the junior students that if we do good to all irrespective of what we receive, goodness will prevail in the society and thus harmony will be established.

With the school holding its annual fete on 22nd Nov '18, **communal harmony posters were displayed on a special**

board and volunteers posted near the board sold Communal Harmony flags and requested parents to donate for the victims of the communal riots. While the **youngsters collected Rs.3000 from the sale of flags, an amount of Rs. 1,084 was collected as a donation.**

Mrs. Archana Ukey and Mr. Akil Yusuf, who worked hard to organize all the activities which were held during the week, expressed their gratitude to all the teachers and student volunteers who helped in making the event a success. They also thanked the Golden Rule Committee which contributed a great deal to the smooth execution of the event.

This time a Sunday was chosen for the session, so that maximum parents could attend the programme and reap maximum benefits. This time too the session was conducted by Mrs. Savita Venkat, our Cambridge consultant. The session was held in two separate parts depending upon the age groups of the learners. Parents of grades 1, 2 and 3 attended the session from 10:00 a.m. to 12:00 noon and the parents of grades 4,5 and 6 from 1:00 p.m. to 3:00 p.m. From the time the session started until the end, the parents were seen enjoying, brainstorming through the various activities where they played games, did role plays, did situation analysis etc.

It was thoroughly enjoyable experience where the parents were made to behave like their kids, enacting out the given situations and then through collaboration hunt for the solutions. Without even realizing, the parents were doing - active learning, problem solving and critical thinking, just like how their kids are made to do in school.

After attending this workshop, even the parents realised that the school and parents must work in tandem with each other, to bring out the best in the learners and develop in them life skills. Also, that such workshops help in bringing the school and parents closer, to help, bring out the best in the learners.

**WORKSHOP BY DR. SHISHIR PALSAPURE CONDUCTED IN CPSI**

A workshop on 'Emotional Wellbeing of Children' was held for the parents of the learners of CPSI at Centre Point School International on 10th October, 2018, Wednesday, from 9:30 a.m. to 11:30 a.m. by the well-known Psychologist and a Clinical Psychotherapist, Dr. Shishir Palsapure. The emotional well being of children has always been a matter of deep concern for both the school and the parents. In a very interesting and an interactive session, real issues being faced by children as well as the parents were taken up.

The session went on for over two hours, as the parents kept on asking questions, expecting to find solutions to the various issues they had and the problems they faced in their daily lives with their children. On heavy demand and popular choice the issues of 'anger management' and 'how to reduce screen time', were also taken up. But due to time constraints, the workshop had to be concluded but with a promise to have another one soon as there were many burning issues the parents needed guidance on. All in all, the anxious parents went back, loaded with many useful suggestions and tips from a very fruitful and satisfying session but yes with a thought in their mind, craving for more saying "Yeh dil maange more".

SPECTACULAR PERFORMANCE BY CPSI STUDENTS

Centre Point School International's very first concert was held on 31st Jan'19 where all the learners performed with enthusiasm and zeal. The entire school participated wholeheartedly towards the success of this grand event. The performance showcased by the talented students across different grades impressed one and all. The theme of the concert was "Our Small World" staging all the aspects of Cambridge Curriculum such as cultural awareness, application of their knowledge, innovation and International Mindedness.

There were performances that presented the culture of various countries through dance. The show began with a very dazzling Arabian dance where girls from grades 1,2 and 3 swayed and twirled on a mesmerizing music. The hilarious English play 'The Crazy Story' had a brilliant script and made the audience dissolve into laughter as it was not any clichéd fairy tale with Prince always saving the Princess and falling in love with her beauty and helplessness! With wolves who are portrayed negatively. With plenty of ideas in the mind, an author writes a new story using his creativity and critical thinking skills and ends up writing an innovative one that turns out to be a hilarious Crazy Story!

The dance from Thailand was a rice growers' dance that showcased the process of rice farming and finally celebrating the harvest. The Shadow Dance showcased the Goals for Global Peace and was presented meticulously by the learners. The back-breaking effort taken by the learners to do the formations highly impressed the audience. Love Song to the Earth – the Musical was all about saving the environment showcasing man's greed and reckless deforestation and how it leads to loss of habitat of the animals. It was a perfect blend of their singing, dancing and acting. The audience was amazed to see the very inventive Puppet Show performed by the boys of grades 5 and 6. It was not a usual puppet show but a visual treat presented by puppets on their knees. Melodious Songs sung by the Junior and Senior Choir were about unity and appreciating the uniqueness of each other. They were beautifully sung by the learners from across all grades. The lively props, costumes and enactment by the students was applauded by the audience.

The rigorous and enjoyable journey helped the learners develop and display a variety of skills such as collaboration, confidence, co-ordination innovation, tolerance, patience, grit and many more.
